We welcome you to EuroCHORUS 2017 at Strasbourg-Current High End Option of Cardiovascular Care.

The objective of the EuroCHORUS is to improve patient care through a close cooperation between cardiac surgeon, vascular surgeon and cardiologist. The meeting will provide opportunity to review the basic knowledge and recently developing technology of cardiovascular care to anyone who might be interested. Leading cardiologists, cardiac surgeons and vascular surgeons in the field of cardiovascular medicine will discuss the current high end option of cardiovascular care in the meeting.

The target audience of the symposium includes cardiac surgeons, cardiologists, vascular surgeons, fellows, physicians and nurses interested in cardiology, medical students and paramedics dealing with hybrid laboratory. We believe that your participation will improve the patient care through better understanding of current high end option.

We hope that the EuroCHORUS 2017 will offer you an exciting experience in learning the latest techniques, seeing the newest devices and meeting the most experienced heart teams in a beautiful European city, Strasbourg.

Yours sincerely,
